SPECIAL INSTRUCTIONS

SIZING INFORMATION

Your belt is "MADE TO MEASURE." Accurate sizing is very important Belts are cut and sized according to the information you provide. Measure your exact waist and hip size using a tape measure. Do not estimate your waist size or rely on your pants size. (Measure over your trousers.) Any adjustments made due to inaccurate sizing information may be subject to a service charge. **Always use a tape measure to ensure accuracy.** The proper position to wear western style gunbelts is immediately under the trouser belt line in a horizontal position as shown.

Please trace both a FULL and PROFILE view of your knife.
